PROFILE

A master's candidate in **Developmental Psychology and Education**, with interdisciplinary training in **sociology** and applied research. Equipped with strong **quantitative skills** in dataset preparation, visualization, and survey-based analysis, complemented by **qualitative expertise** in conducting and interpreting in-depth interviews. Experienced in translating **user insights** into **actionable recommendations** that improve **engagement, program delivery, and user experience**.

EDUCATION

University of Toronto

Sept. 2024 – Jun. 2026

Master's in Developmental Psychology and Education

Toronto, CA

- **GPA:** 3.97/ 4.0
- **Coursework:** Applied Qualitative Research, SPSS/ Data Analysis, Consultative Interviewing

University of Alberta

Sept. 2019 – Nov. 2023

Bachelor's in Sociology with Psychology Minor

Edmonton, CA

PROFESSIONAL EXPERIENCE

Immerse Education

Jul. 2025 – Aug. 2025

Project Coordinator

Toronto, CA

- **Designed** dynamic dashboards for **39 participants** to identify low-engagement phases, **boosting engagement scores by 9.6%** and **cutting daily follow-up workload by 1 hour**.
- Conducted **70+** one-on-one in-depth interviews to capture qualitative feedback on activity experience and participant needs, **contributing to a 98.3% overall satisfaction rate**.
- Integrated feedback into **5 actionable directions** (e.g., flexible scheduling adjustments), informing weekly decision-making and supporting a reusable improvement framework for future programs.
- Facilitated daily debrief sessions with **3 colleagues** and produced **8 incident reports**, ensuring **zero safety incidents or major complaints** throughout delivery.

RESEARCH EXPERIENCE

Independent Research Project

Jan. 2025 – Apr. 2025

Pet Companionship and Intimacy Needs among Unmarried Urban Adults

Toronto, CA

- **Designed** a semi-structured interview framework to explore the emotional drivers behind pet ownership, **recruiting 7 cross-cultural participants** (Chinese/ American/ French) and **generating 12+ hours of narrative data** that revealed unmet psychological needs.
- **Synthesized** qualitative narratives into a structured behavioral typology through systematic coding (NVivo 14), identifying **5 core motivators** that consistently drove user engagement.
- **Constructed** a three-dimensional user emotion model that explain why and how companionship features influence intimacy needs; **cross-validated** findings through multi-source triangulation (interviews, literature, standardized scales) with **90%+ coding reliability**, ensuring recommendations are both **human-centered** and **evidence-based**.

SKILLS

- **Qualitative:** Semi-structured Interview Design, In-depth Interviewing, Focus Groups, Thematic & Grounded Coding, Cross-cultural Research
- **Quantitative:** Survey Design & Validation, Statistical Analysis using SPSS (descriptive, correlation, t-test) and R (dplyr/ggplot/regression), Data Visualization & Dashboarding (Excel, R ggplot)
- **Language:** English, Mandarin, Cantonese
