PROFILE

Bilingual User Researcher and Data Analyst specializing in Developmental Psychology and Sociology. Equipped with strong quantitative skills (**data visualization**, survey analysis) and qualitative expertise (**in-depth interviewing**, thematic coding). Experienced in translating complex user insights into actionable, human-centered recommendations that enhance program delivery, optimize user experience, and **drive measurable engagement**.

EDUCATION

University of Toronto

Sept. 2024 – Jun. 2026

Master's in Developmental Psychology and Education

Toronto, CA

- **GPA:** 3.97/ 4.0
- **Coursework:** Applied Qualitative Research, SPSS/ Data Analysis, Consultative Interviewing

University of Alberta

Sept. 2019 – Nov. 2023

Bachelor's in Sociology with Psychology Minor

Edmonton, CA

PROFESSIONAL EXPERIENCE

Immerse Education

Jul. 2025 – Aug. 2025

Project Coordinator

Toronto, CA

- Designed dynamic **data dashboards** to monitor 39 participants, successfully identifying low-engagement phases and **cutting daily follow-up by 1 hour**.
- Conducted **70+ one-on-one in-depth interviews** to capture qualitative feedback on activity experiences, contributing to targeted improvement and a **98.3% overall satisfaction rate**.
- Translated user feedback into 5 actionable strategic directions (e.g., flexible scheduling), **boosting overall engagement scores by 9.6%** and establishing a reusable improvement framework for future programs.
- Facilitated daily debrief sessions with a 3-person team and generated 8 incident reports, ensuring **zero safety incidents** or major complaints during the delivery period.

RESEARCH EXPERIENCE

Independent Research Project

Jan. 2025 – Apr. 2025

Pet Companionship and Intimacy Needs among Unmarried Urban Adults

Toronto, CA

- Designed a **semi-structured interview framework** to explore the emotional drivers of pet ownership among 7 cross-cultural participants (Chinese, American, French)
- Analyzed over 12 hours of narrative data using **NVivo 14**, conducting systematic coding to reveal unmet psychological needs and identify **5 core motivators** for user engagement.
- Developed a **3-dimensional user emotion model** explaining how companionship features fulfill intimacy needs.
- Cross-validated findings through **multi-source triangulation** (interviews, literature, standardized scales) achieving **90%+ coding reliability**, ensuring evidence-based and robust conclusions.

SKILLS

- **Qualitative:** Semi-structured Interview Design, In-depth Interviewing, Focus Groups, Thematic & Grounded Coding, Cross-cultural Research
- **Quantitative:** Survey Design & Validation, Statistical Analysis (SPSS: descriptive, correlation, t-test; R: dplyr, ggplot, regression).
- **Tools:** Data Visualization & Dashboarding (Excel, R ggplot), NVivo 14
- **Language:** English, Mandarin, Cantonese
